2:50 pm	Pick your “Top Ten”	All
3:00 pm	Compare Lists – ID clear winners, losers and those in the middle. Where do we cut off this list?	All
3:45 pm	Recommendation to CAN Resource Council	All

Health Indicators

- Dr. Phil Huang met with Beth Peck, Ashton Cumberbatch and Louise Lynch.
- Focused on Healthy People 2010 indicators
<http://www.healthypeople.gov/LHI/>

Narrowing the Indicators

Before your vote, any last...

- Questions?
- Clarifications?
- Additions?
- Deletions?

Community-wide Dashboard

A short-list of prioritized indicators that measure our progress toward achieving our common vision and that provide a framework for taking action together.

How will the Community Dashboard be used?

- To increase community awareness.
- To track whether we are moving in the right direction to achieve our shared vision.
- Partners and stakeholders will use the dashboard to consider how their individual plans and activities impact the larger picture.
- To identify inter-related issues and key problems that require collaborative solutions.

Community-wide Dashboard

- Will NOT diagnose problems or prescribe solutions
- Will NOT give enough information for making funding decisions.
- WILL alert us to problems that need closer attention and deeper analysis.
- Will NOT replace Issue-specific dashboards.

May meeting determined...

- Preference for a *strategic* dashboard rather than an operational dashboard or a tactical dashboard.
- Preference for a *static* rather than dynamic dashboard.
- Agreed dashboard should be coordinated with ReadyBy21 and other dashboards.
- Cost of creating, maintaining dashboard is issue for policy-makers.

Select your Top Ten

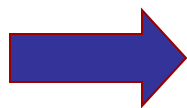

Working independently, select ten of the indicators we have discussed as indicators that you believe offer a broad, high-level perspective of whether our community is moving closer to our “Ideal Statements.”

Crème of the "top"

- List indicators in order of "popularity"
- Identify clear winners
- Identify near misses
- Where do we cut off this list"?

August Meeting

- How will dashboard be created and by whom?
- How will dashboard be shared with the community?
- How will dashboard be updated and maintained?

Recommendation to
CAN Resource Council
on September 11th.
